The Inauguration of india's first comprehensive ...

Chennai, June 13th, 2023: AOI (Asian Orthopaedic Institute) at SIMS Hospital, a premier healthcare facility is pleased to announce the launch of its Comprehensive Hip Surgery Unit. Advanced innovations in the treatment of hip problems & pathologies are being introduced to mark this occasion. All the four new technologies are being introduced for the first time in the country. With this, we at SIMS – AOI hope to further improve the outcomes for the benefit of our patients and take the management of hip pathologies & surgeries to the next level. The Hospital is happy to introduce the highly sophisticated Chicago Hip Preservation Service, NAVISWISS System, Custom Docking Augment Technology, and Polymotion® Advance Hip Resurfacing System for the first time in the country.

The Chicago Hip Preservation Service – True to its name, this service will be run by highly skilled experts with decades of experience aided by the advanced imaging offered at SIMS Hospital. The aim of this endeavour is to identify, detect and treat the problems before the painful arthritis sets in and in some cases totally prevent it. Combining cutting-edge technologies, advanced imaging & Keyhole procedures, this service promises to be a key element of this unit, hitherto not available here.

The introduction of the revolutionary NAVISWISS System, a recent innovation in surgical navigation system for hip replacements, forms the foundation of the Comprehensive Hip Surgery Unit. This revolutionary device offers accurate and real-time guidance during hip procedures, boosting the surgeon's ability to obtain optimal results while minimising invasiveness. By implementing the NAVISWISS System in surgical procedures, the unit hopes to offer patients, the greatest level of care while also increasing the likelihood of successful hip preservation.

Introduction of the Custom Docking Augment Technology has been a gamechanger in enhancing the techniques in difficult hip surgeries and revision hip surgery. With the help of this cutting-edge technology, implants may be placed precisely resulting in increased stability, mobility, and patient satisfaction. The Custom Docking Augment Technology demonstrates the hospitals dedication to individualised patient care and ongoing pursuit of perfection in Orthopaedic surgery.

In addition to these ground-breaking innovations, the hospital is pleased to offer Polymotion®, a new generation hip resurfacing technology, the most recent development in hip resurfacing operations. It offers patients a better hip resurfacing alternative that protects bone, enhances joint function and shortens the recovery time. Adopting the recent innovations in material that are safe and lasting and combining it with precise surgical methods, AOI at SIMS Hospitals is staying a step ahead. By introducing this pioneering technique to the patients, it proves that SIMS Hospital dedicated to providing the most cutting-edge treatment alternatives.
